United Way's Labor Engagement Team is committed to helping union membes regain stability and build back stronger communities. Together, we can continue improving the lives of our neighbors with your donations by helping with immediate basic needs, such as direct assistance support for food, utilities, housing, or transportation. Give Today.

HOW YOUR DONATIONS HELP

Union member is a single parent of two young children. Due to the coronavirus pandemic this member missed work without pay taking care of her children. The gas service was scheduled for turn off. Thru your gifts, we were able to work with the gas company and her gas service remained on.

A tradesman called for help. His water was scheduled to be turned off and he did not have the money to keep it on. Your donations were used to prevent interruption of his water service.

Union member had a family crisis and recently took in her 2 year old grandchild to live with her. She took unpaid leave to deal with the family situation and found herself behind in her rent. Because of your support, a partial rent payment was made to her landlord. The member was able to enter into a payment arrangement with her landlord to prevent further action.

A union member who works at a local university called for assistance when his electric service was turned off. His fiancée is receiving cancer treatment and unable to work. They have five children in the household. With your help, we were able work with the utility company and his electric service was restored.
