I. Renewal Application Process

All 2020 Safety Net agencies will need to complete a 2022 Renewal Application. The purpose of the Renewal Application is to allow agencies space to provide key updates and document progress in regard to information submitted during the 2020 Safety Net application process. This will ensure that United Way volunteers have necessary and up to date information for site visits and continued funding approval during the Summer and Fall.

United Way of Greater St. Louis regularly collects data and information from its funded partners for the following purposes: accountability to donors and the community, informing community investments, fundraising, evaluation, research, benchmarking, and knowledge sharing.

PLEASE NOTE: The 2022 Safety Net Renewal Application will be open from June 2, 2021 through July 1, 2021 with responses due by 5pm on July 1.

United Way of Greater St. Louis has transitioned to using FormAssembly to collect agency data this year as it allows us more control over the forms while providing a much better user experience for you. However, FormAssembly does not have users and logins in the traditional sense. That is why we are recommending **one person in the organization be designated to enter the information into the forms and to submit the forms.**

We also recommend **writing all responses to the questions outside FormAssembly** in a traditional word processing software like Microsoft Word. You will have the ability to print and review your responses before submitting. The [list of questions](#) and instructions for [printing](#) before you submit are provided later in this guide.

The link to the Renewal Application is below:

Please direct questions regarding the technical aspects of FormAssembly, saving and resuming, and entering information into forms to reporting@stl.unitedway.org.

Questions regarding the content of information submitted during reporting should be directed to your Portfolio Manager/ United Way staff contact. Please see the Contact List in the Appendices for a list of agencies and corresponding United Way staff contacts.

II. Important Tips

1. System Requirements

To use the web-based reporting system, you will need the most up-to-date version of either Microsoft Edge, Google Chrome, or Mozilla Firefox.

2. Copying and Pasting into FormAssembly Forms

We are recommending writing all responses to the questions outside FormAssembly and copying and pasting your responses into the correct text box. FormAssembly does not save your work as you are working so it is best to have another place where responses are saved outside the forms. You can copy and paste from any word processing software including Microsoft Word, Open Office, and Microsoft Excel without worrying about any special characters (!, @, \$, etc.) or formatting changing.

3. Do not use Back or Reload Buttons on Browser

Each of the forms that need to be filled out and submitted are self-contained so there will be no need to use the Back or Reload button on your browser. If you do use the Back or Reload buttons you may lose all the work you have completed in the form. If you find that you need to leave your computer, you can save and resume later by using the links at the top and bottom of the form. [You can view more detailed instructions later in the guide.](#)

4. Spellcheck

The system does not contain an embedded spellcheck/grammar check; however, some web browsers do include this feature. We recommend typing narrative responses in a

word processing system and then copying/pasting into the reporting system to minimize the likelihood of spelling and grammar errors.

5. Spell out Acronyms

Spell out acronyms, at least with the first use (e.g., FQHC – Federally Qualified Health Center or COA – Council on Accreditation).

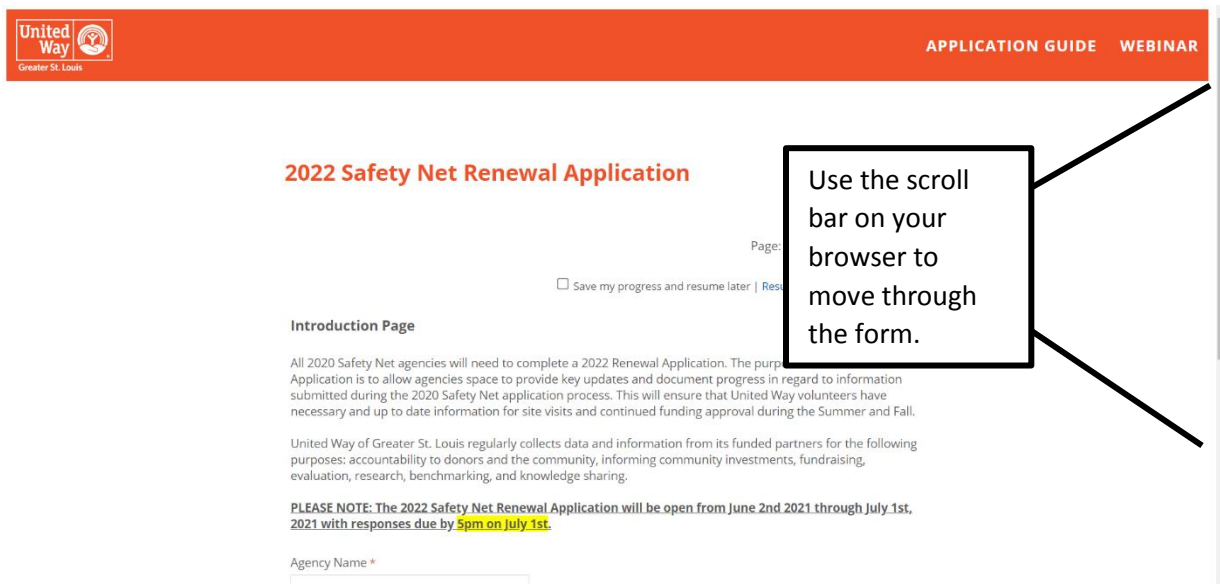

III. Accessing the Renewal Application

The Renewal Application can be accessed at the link below:

It also states that United Way of Greater St. Louis regularly collects data and information from its funded partners for various purposes. A 'PLEASE NOTE' section indicates that the 2022 application will be open from June 2nd 2021 through July 1st, 2021, with responses due by 5pm on July 1st. 11. How is the information reported on this application going to be used?
12. What if I my agency does not complete the application by the deadline?

TECHNICAL QUESTIONS

1. **Where do I log in to the renewal application?**

There is no log in page for reporting this year. To access reporting, refer to the section titled "Accessing Reporting" above in this guide.

If you saved your form to resume it later and have lost the link or forgotten your password, please reach out to reporting@stl.unitedway.org.

2. **I accidentally submitted my form before I was done. What should I do?**

Hitting the "Submit" button on the bottom of the form one time **DOES NOT** submit your form. Instead, it brings you to a page for confirmation. To go back to editing your form, press the "Make a correction" link at the bottom of the confirmation page.

If you hit the "Confirm" button on the bottom of the confirmation page before you meant to, please reach out to reporting@stl.unitedway.org for assistance.

3. **I hit BACK, RELOAD, or closed my browser. Can I recover the information I entered?**
Form Assembly does not continuously save your work as you enter information. Because of this, we recommend you write all your responses outside Form Assembly and copy/paste into the form itself.

If you need to step away from your computer, refer to the section above titled “Save and Resume Forms.”

4. **The form I open does not look like the pictures you have in the guide. Did I do something wrong?**

If the online form is not functioning correctly, you might be using an outdated version of your browser. Please make sure you are using the most up-to-date version of Microsoft Edge, Google Chrome, or Mozilla Firefox. If you are using the most up-to-date browser and you are still having problems, please reach out to reporting@stl.unitedway.org.

If you are not seeing certain questions on your forms, those questions may be conditional such that they only show up based on an answer to a previous question. The conditional questions are noted in italics in the List of Questions section of this guide.

5. **What do I do if the files sizes of my documents are too large for the upload tool?**
For documents with file sizes too large for the upload tool, select the “Yes” option in the form for the document that has changed and then email the document to reporting@stl.unitedway.org with the naming convention of Agency Name-Document Name. For example, if I needed to email United Way’s Certificate of Corporate Good Standing, I would first select “Yes” when asked if my agency’s Corporate Good Standing Certificate had been updated and then I would send it titled as United Way-Certificate of Corporate Good Standing.

CONTENT QUESTIONS

6. **What if I am unsure about what information I should enter?**
Agency updates, program descriptions, client types, and any other questions about the *content* of information submitted should be directed to your agency’s United Way Portfolio Manager. You can find your agency’s Portfolio Manager in the United Way Contact List appendix of this document.
7. **What if my agency uses more than one measurement tool/method to determine if a client has achieved an outcome?**

When describing/listing the measurement tool/method in the “Outcomes” section, it is best to be clear and specific about how the agency understands if a client has actually achieved the selected outcome. If more than one measurement tool or method is used, describe how those various tools are used to determine achievement. It may be helpful to outline what score or level of completion on an assessment dictates achievement of an outcome. If one answer on a survey/assessment is used to determine achievement of a particular outcome, it may be helpful to list that question in the measurement tool/method section rather than the survey name.

GENERAL/OTHER QUESTIONS

8. Who is my agency’s Portfolio Manager?

Portfolio Managers are listed in the United Way Contact List appendix of this guide.

9. What happened to data my agency submitted in 2021 Reporting?

2021 Reporting covered services provided and outcomes achieved by agencies funded in 2020 under the previous funding model. It will be used to demonstrate the impact of investments made in the community in 2020. Data collected during reporting is also used to identify priority areas for supplemental funding, understand regional resources for specific populations, assess community need, identify best practices and effective models for service, pursue grant funding, and more.

If your agency was required to complete 2021 Reporting, some of that information may also be referenced for comparison during the Safety Net site visit process.

10. How is the information reported on this application going to be used?

Data collected during in the Renewal Application will be used to help United Way understand any major changes within the agency and services provided, clients served thus far in the year, and current use of funding. It is the first opportunity for updates regarding 2021 Safety Net Funding. This information will be reviewed by United Way allocations volunteers and referenced during the Safety Net site visit process.

Information from funded agencies helps United Way in its efforts to invest in quality agencies that are working to address community needs and help people in the St. Louis region live their best possible lives.

11. What if I my agency does not complete the application by the deadline?

Safety Net agencies are required to submit a renewal application by the stated deadline. Network Member agency’s annual award amount are based on the network

member's performance, which is gleaned from a combination of annual reporting, the renewal application, and the agency's site visit. If an agency does not complete the renewal application, UWGSL may in its discretion withhold funding until the agency provides the requested information. In addition, this may impact the agency's future funding from UWGSL.

B. Definitions

Direct Clients

These clients generally receive extensive and/or long-term services in small groups or one-on-one. Intake records or other reliable methods of collecting information on these clients are maintained. Please note that if a client receives a core direct service provided by your agency, even if only once, and you have any demographic information, the client should likely be considered direct, but records should be maintained to the degree that the same client is not counted twice in the direct client total.

Indirect Clients

These clients generally receive one-time or infrequent services from the agency and the services may be provided in a group setting. Detailed records for each client are not maintained, although a basic count of the number of participants should be available. Demographic information is typically difficult or impossible to collect for indirect clients.

Measurement Tool/Method

Measurement tools/methods are used to assess effectiveness of programs and services. For the Outcomes section of United Way reporting, a measurement tool/method should be used to determine if a client has achieved the selected outcome. Providing context about the process that is used to determine if a client has achieved an outcome may be more helpful than only listing tools/assessments.

Portfolio Manager

Portfolio Managers serve as liaisons between allocations volunteers and funded agencies and have field of service and nonprofit best practices expertise.

Primary Need Area

There are twenty-four priority needs defined in United Way's Community Needs Assessment. For each program, agencies should select the priority need that aligns most closely to the need the program addresses as the primary need area for that program. Programs may address multiple needs but only one primary need can be selected. This information is particularly helpful in data analysis.
